## PREFATORY NOTE

This, the fifteenth, volume of THE ENGLISH CATALOGUE OF BOOKS records works published in Great Britain during the six years 1942-1947, which included three and a half years of war.

The number of books recorded is approximately 46,000 and as each work is catalogued under its author's name and also under its title and subject where necessary, it is estimated that this volume contains some 100,000 entries.

The main entry for each book begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with their most important words (which usually indicate the *subjects* with which the books deal), or with the first words. Many other index entries are also provided under subjects in order to make the CATALOGUE of use to persons in search of the literature of a particular topic, as well as to those requiring a particular book. The name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the first part of the name, *e.g.*:—**Everett-Green** (Evelyn) and accordingly must be looked for in that order.

The names and addresses of the Publishers of Great Britain and Ireland will be found at the end of the volume.

The compulsory registration of publications is not a condition of copyright in the British Isles, and the accuracy and completeness of a record such as THE ENGLISH CATALOGUE OF BOOKS depends to a large extent on the co-operation of many persons. Such help is welcomed, and hearty thanks are due to the publishers, secretaries, librarians, authors and bibliographers who have assisted in making this record more correct and comprehensive than it would have been otherwise.

The Editor will be glad to have particulars (authors, title, size, price, publisher, and month of publication) of any work which may have been omitted. Information should be addressed to *The Editor* of THE ENGLISH CATALOGUE OF BOOKS, "Publishers' Circular" Office, 171, High Street, Beckenham, Kent. A supply of special forms for this purpose will be sent free on application.

# THE ENGLISH CATALOGUE

## 1942 - 1947

\*\*\* The names or words printed in *Italic* in the Index Entries are those under which the books will be found fully described in the main entries
